SPECIFICATION FOR PORTLAND CEMENT.

1. The cement shall be prepared by intimately mixing together calcareous and argillaceous materials, burning them at a clinkering temperature and grinding the resulting clinker. No addition of any material shall be made after burning, except when desired by the Manufacturer and if not prohibited in writing by the Consumer, in which case calcium sulphate or water may be used. The cement, if watered, shall contain not more than two per cent. of water, whether that water has been added or has been naturally absorbed from the air. If calcium sulphate is used, not more than 2 per cent. calculated as anhydrous calcium sulphate of the weight of the cement shall be added.

Quality and
preparation
Portland
Cement.

2. Cement will be tested ordinarily at the Public Works Department, but should it be deemed more convenient that the samples for testing should be taken at the Manufacturer's works before delivery,

Testing at
P.W.D. or
sampling at
Manufacturer's
Works.

the latter shall, in that event, afford full facilities to the Inspector appointed by the Government to sample the cement as he may desire at the said works, and subsequently to identify each parcel, as it may be despatched, with that sample by him. No parcel shall be sent away unless a written order has been previously received by the Manufacturer from the Inspector, to the effect that the material in question has been approved.

Fineness and
Sieves.

3. The cement shall be ground to comply with the following degrees of fineness, viz :—

The residue on a sieve $76 \times 76 = 5,776$ meshes per square inch, shall not exceed 3 per cent.

The residue on a sieve $180 \times 180 = 32,400$ meshes per square inch, shall not exceed $22\frac{1}{2}$ per cent.

The sieves shall be prepared from standard wire, and the size of the wire for the 5,776 mesh shall be .0044 inch, and for the 32,400 mesh, .002 inch. The wire shall be woven (not twilled), the cloth being carefully mounted on the frames without distortion.

Specific
gravity.

4. The specific gravity of the cement shall be not less than 3.10 when sampled after delivery.

Chemical
Composition

5. The cement shall comply with the following conditions as to its chemical composition. There shall be no excess of lime, that is to say, the proportion of lime shall be not greater than is necessary to saturate the silica and alumina present. The percentage of insoluble residue shall not exceed 1.5 per cent.; that of magnesia shall not exceed 3 per cent.; and that of sulphuric anhydride shall not exceed 2.5 per cent.

Mode of
gauging.

6. The quantity of water used in gauging shall be appropriate to the quality of the cement, and shall be so proportioned that when the cement is gauged it shall form a smooth, easily worked paste, that will leave the trowel cleanly in a compact mass. Fresh water shall be used for gauging. The cement gauged as above shall be filled, without mechanical ramming, into moulds of the form approved by the British Engineering Standards Committee, each mould resting upon an iron plate until the cement has set.

When the cement has set sufficiently to enable the mould to be removed without injury to the briquette, such removal is to be effected. The said briquette shall be kept in a damp atmosphere for 24 hours after gauging, when it shall be placed in fresh water and allowed to remain there until required for breaking, the water in which the test briquettes are submerged being renewed every seven days.

Neat test.

7. Briquettes of neat cement shall be gauged for breaking at 7 and 28 days, respectively. For breaking, the briquette shall be held in strong metal jaws. The briquettes shall bear on the average not less than the following tensile stresses before breaking :—

7 days from gauging—400 lbs. per square inch of section.

28 " " " —500 lbs. per square inch of section.

The increase from 7 to 28 days shall not be less than:—

25 % when the 7 day test falls between 400 lbs. to 450 lbs. per square inch of section.

20 % when the 7 day test falls between 450 lbs. to 500 lbs. per square inch of section.

15 % when the 7 day test falls between 500 lbs. to 550 lbs. per square inch of section.

10 % when the 7 day test is 550 lbs. per square inch or upwards.

Sand Test.

8. The cement shall also be tested by means of briquettes prepared from one part of cement to three parts by weight of dry sand, the said briquettes being of the shape described for the neat cement tests; the mode of gauging and the filling of the moulds shall also be similar. The proportion of water used shall be such that the mixture is thoroughly wetted, and there shall be no superfluous water when the briquettes are formed. The cement and sand briquettes shall bear the following tensile stresses :—

7 days from gauging—120 lbs. per square inch of section.

28 " " " —225 lbs. per square inch of section.

The increase from 7 to 28 days shall not be less than 20 per cent.

9. No cement shall be approved or accepted unless it fully complies with the foregoing conditions. Acceptance.

10. Each barrel to contain 400 lbs. net of cement, and to be of sound, well-seasoned fir, closely jointed. The staves to be not less than 28 inches long by half inch thick; the heads to be 16 inches inside diameter, the bulge 19 inches inside diameter. Each barrel to be bound with four new strong iron hoops and 10 wooden hoops. The bulge hoop to be not less than nine inches from the end of the staves. The heads to be of fir or oak not less than half inch thick, secured by two hoops each, one inside and one out, the inside hoop to be not less than 1½ inches from the end of the staves. Cross bars on each head not less than 3 inches by half inch. The points of all nails passing through the staves to be clenched. The barrel to be carefully lined throughout with approved brown paper. SUPREME COURT OF BRITISH GUIANA.

APPELLATE JURISDICTION.

THIS 6TH DAY OF MAY, 1910.

J. SCHULTZ AND OTHERS

versus

E. L. MELVILLE.

This is an appeal from Mr. E. R. Anson, Stipendiary Magistrate, Berkelee Judicial District, who, on the complaint of E. L. Melville, Land Officer, convicted the appellants for removing a bateau laden with 21 logs of squared Bullet wood timber which had been seized by the said E. L. Melville in terms of the Crown Land Regulations 32 of 1903.

The reasons of appeal are :—1. That the decision is erroneous in point of law : (a) Because it was not proved that the subject matters of the charge were taken from off Crown lands or used in the removal of any substance or thing taken from off Crown lands to warrant the seizure of them by the complainant.

(b) Because it was not proved that the defendants removed the timber and bateau from any place which had been seized by the complainant within the meaning of the law.

That the decision is altogether unwarranted by the evidence in like manner as if the case had been tried by a jury there would not have been sufficient evidence to sustain the verdict.

The Magistrate's reasons for decision are as follows :—I believe the evidence tendered by the complainant and find it is materially corroborated by the evidence for the defence. I consider the evidence establishes the charge.

Section 25 (1) of the Crown Lands Ordinance, 32 of 1903, gives the power to certain officers to make seizures and take possession of any substance or thing illegally taken from off Crown lands together with any boat or vehicle used in the removal.

Section (28) throws the onus of proof of the illegality of any seizure made under this Ordinance on the claimant of the article seized, and the proof of the legality thereof shall not be on the seizing officer.

As to reason 1, it is clear that the seizure was made under sec. 25 (1) and it was for the appellants to prove under sec. 28 that the timbers so seized were not taken from or off Crown lands. Their proper course would have been for the appellants to have claimed them and proved under sec. 28 that they had been illegally seized. As to reason 2, it was contended by counsel for the appellants that under section 33, the articles must be not only seized but taken possession of and stored and that the removal must be from the place where they had been seized or stored and that the mere taking away of the wood from the officer would only be an obstruction and not a removal. The prosecutor in his evidence says : "I seized the bateau and certain timber logs it was conveying and all the timbers that could be reached I marked with the Broad arrow (the Government mark). The first defendant left and returned with the second and third and they took possession forcibly of the timber and carried it away. I could not prevent them."

The evidence clearly shows prosecutor made the seizure under sec. 25 (1), and that he had possession of the seizure. The subsequent forcibly taken possession of them by the defendants I hold amounts to an unlawful removal which is an offence under sec. 33.

As to the last reason, there is ample evidence before the Magistrate to warrant his finding.

The appeal must be dismissed with costs.

LIMITED JURISDICTION.

THIS 6TH DAY OF MAY, 1910.

JHUNIA

versus

JAMES WILLIAMS.

This is an opposition to the passing of transport by defendant to one Edward Lou Hing of Pin. Met-en-Meerzorg of Section C., part of lot 24, part of the front lands of Plantation De Groeten Klyne, Uitvlugt, situated on the west sea coast of the county of Demerara.

It was contended by counsel for the defendant that the solicitor had no authority in law to issue the writ in the matter.

The authorization in the writ is signed Mahomed Ishmael for wife. It was acknowledged by counsel for plaintiff that Mahomed Ishmael was not married to the plaintiff but only cohabited with her and that no power of attorney by her in Ishmael's favour exists.

Order III, rule 9, of the Rules of Court provides "that the plaintiff's solicitor, unless authorized by a general Power *ad Lites* passed and executed in the office of the Registrar, shall when presenting a writ of summons to the Registrar produce an authority in writing, signed by the plaintiff or his attorney appointing the solicitor to act for him in the action."

I am asked by counsel for plaintiff whether the word "attorney" cannot mean an ordinary agent not appointed by a Power of Attorney, or legalized document. I consider the word "attorney" used in the Rule applies to a person under Power of Attorney or legalized document and cannot be taken to mean an ordinary agent.

This being so there is no authority to the solicitor by the plaintiff to issue the writ herein. The opposition is declared bad. There will be judgment for the defendant with costs.

LIONEL E. HAWTAYNE, Acting J.

LIMITED JURISDICTION.

THIS 12TH DAY OF MAY, 1910.

HAMLET MILLER

versus

JAMES MOORE.

I find from the evidence that the defendant agreed to transport to the plaintiff a portion of land forming part of lot No. 2, North section of Government land in Canal No. 2, in consideration of the plaintiff paying him the sum of \$25 and that it was further agreed that the cost of transport should be equally divided between the parties. That the sum of \$25 has been paid by the plaintiff to defendant, that the transport has been advertised and is ripe for passing but that the defendant has refused to pass the same and pay his half of the transport fees.

I order that the defendant pass the said transport in accordance with his agreement with the plaintiff by Saturday, the 21st day of May, 1910, and in the event of his failing to do so that the Registrar

of British Guiana pass the same to and in favour of the plaintiff.

The defendant must pay the costs of these proceedings.

LIONEL E. HAWTAYNE, Acting J.

THIS 14TH DAY OF MAY, 1910.

A. C. V. GOMES

versus

AMEERBUKSH.

This is an action for the recovery of the sum of \$150 being the amount due, owing and payable, by the defendant to the plaintiff as holder on endorsement for value of a certain promissory note made by the defendant in favour of one J. A. O. Smith or his order dated Georgetown, Demerary, 27th July, 1909, and payable 18 months after date in three equal instalments of \$50 at end of every six months from date of the said note and in the event of one instalment not being paid the whole amount of \$150 would be recovered. On the tendering of the note during the plaintiff's evidence Counsel for defendant objected to the admission in evidence of the said note (1) because the note when first pleaded and therefore after the action was instituted only bore a sixpenny stamp and was therefore not sufficiently stamped and that it was not competent for the plaintiff afterwards to have petitioned the Government and have it sufficiently stamped. It was admitted by the Solicitor for the plaintiff that after the commencement of the action he had the note sufficiently stamped under sec. 27, Ord. 4. of 1888.

(2). That the note sought to be tendered is not in accordance with the pleadings—and that the plaintiff's Solicitor in opening his case referred to the note and also to a memorandum on such note as to payments by instalments, and contended that if such memorandum was made that it and the note should have been set out in the statement of claim as they stand, and thus have given the defendant the opportunity of pleading forgery which he would have done.

3. That the memorandum on the note being an agreement it should have been stamped as such.

As to objection (1). In the case of Wright and others v. Riley, Peakes Case, p. 230, the bill when produced in evidence appeared to be properly stamped, but the defendant proved that it was not stamped when drawn nor for some time after. Lord Kenyon held that though the Commissioners might have exceeded their duty in stamping the Bill, still that being stamped he thought it was become a valid instrument and a Judge at Nisi Prius could not enquire how and at what time it was stamped. As to objection (2) I consider that the statement of claim is misleading—the claim appears as if the note itself was a note payable at eighteen months from date in three equal six monthly instalments of \$50 each, whereas in truth and in fact the note, which is signed by the defendant, is one at eighteen months with an agreement written under it and purporting also to be signed by the defendant in the following words:—

"The above amount to be payable in three equal instalments of fifty dollars payable at the end of every six months from the date of the above note and in event of one instalment not being paid the whole of the note will be recovered."

I cannot hold that the agreement or memorandum forms part of the note and can be pleaded in the manner done in the statement of claim herein, therefore, the evidence sought to be admitted by the notice and the memorandum is not in accord with the pleadings. There is therefore no necessity to deal with the third objection.

De Weever asks for non-suit. Judgment of non-suit but I direct that such non-suit shall not have effect of judgment on merits with costs.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

21. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to remove goods so rejected after he shall have received notice of rejection.

22. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

23. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

24. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be weighed, or their respective quantities otherwise ascertained and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

25. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

26. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the

contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and also the right to purchase and obtain through the Crown Agents for the Colonies instead of through the Contractors any goods for which the Contract may be accepted; and any such purchases shall not annul or invalidate the Contract.

SUPREME COURT OF BRITISH
GUIANA.

APPELLATE JURISDICTION.

THIS 8TH DAY OF AUGUST, 1910.

PETAMSING

versus

SOOBAGEAH.

This is an appeal from the Stipendiary Magistrate of the East Coast Judicial District who made an order that the appellant be imprisoned for one month with hard labour on a complaint made by respondent that the appellant having been adjudged by an order made on 23rd May, under Ordinance 18 of 1891, section 158, to pay her the sum of \$686 25 and costs \$14 16 had, after due notice of the terms of the said order, refused to comply therewith.

Most of the reasons of appeal were reasons against the original order made against the appellant and the Court held that no appeal having been made against that order the appellant was debarred from raising them on this appeal.

The reasons therefore which remain to be dealt with are (a) there was no proof that the defendant had had due notice of the order made or that he refused to comply with same; (d) it was not competent for the learned Magistrate to make an order in regard to any costs incurred by the complainant so as to make him liable to imprisonment or at all.

With regard to reason (a) the Magistrate is required by section 153 to summon the immigrants and their witnesses before him to be examined and to make such order as may be just. There is no provision for giving notice of the order made and as it is contemplated that the parties have an opportunity to be present at the time such notice cannot be deemed necessary. Moreover the order of imprisonment states that both parties were present on 2nd May, when the original order was made—not on 23rd as stated in complaint. The appellant too when called upon by the Magistrate to plead to his disobedience of the order admits his liability and his being in default and at the close of the case says, "I will pay the money." This Court is satisfied that the appellant was well aware of the order made against him and this was sufficient. It is urged by counsel that there is no evidence that he refused to comply with same and that at the most he only neglected to do so, as found by the Magistrate; and this being so he cannot be punished for neglecting when charged with refusing. The neglect to obey coupled with the means of obeying amounts to a refusal and this Court is satisfied on the appellant's own evidence that he had such means and therefore that he not merely neglected but wilfully refused to comply with the said order.

With regard to reason (d) this Court would be disposed to hold that the order to pay costs being part of the original order not appealed from the objection cannot now be taken. The power of a Magistrate however to award costs notwithstanding no reference is made thereto in the Ordinance is settled by the decision of this Court in *Boodhoo versus Goolbahar*. (27. 6. 07.)

The appeal is dismissed and the decision of the Magistrate confirmed with costs.

If calcium sulphate is used, not more than 2 per cent. calculated as anhydrous calcium sulphate of the weight of the cement shall be added.

sampling at
Manufacturer's
Works.

	the latter shall, in that event, afford full facilities to the Inspector appointed by the Government to sample the cement as he may desire at the said works, and subsequently to identify each parcel, as it may be despatched, with that sample by him. No parcel shall be sent away unless a written order has been previously received by the Manufacturer from the Inspector, to the effect that the material in question has been approved.
Fineness and Sieves.	<p>3. The cement shall be ground to comply with the following degrees of fineness, viz :—</p> <p>The residue on a sieve 76 x 76 = 5,776 meshes per square inch, shall not exceed 3 per cent.</p> <p>The residue on a sieve 180 x 180 = 32,400 meshes per square inch, shall not exceed 22½ per cent.</p> <p>The sieves shall be prepared from standard wire, and the size of the wire for the 5,776 mesh shall be .0044 inch, and for the 32,400 mesh, .002 inch. Fresh water shall be used for gauging. The cement gauged as above shall be filled, without mechanical ramming, into moulds of the form approved by the British Engineering Standards Committee, each mould resting upon an iron plate until the cement has set.</p> <p>When the cement has set sufficiently to enable the mould to be removed without injury to the briquette, such removal is to be effected. The said briquette shall be kept in a damp atmosphere for 24 hours after gauging, when it shall be placed in fresh water and allowed to remain there until required for breaking, the water in which the test briquettes are submerged being renewed every seven days.</p>
Neat test.	<p>7. Briquettes of neat cement shall be gauged for breaking at 7 and 28 days, respectively. For breaking, the briquette shall be held in strong metal jaws. The cement shall also be tested by means of briquettes prepared from one part of cement to three parts by weight of dry sand, the said briquettes being of the shape described for the neat cement tests; the mode of gauging and the filling of the moulds shall also be similar. The proportion of water used shall be such that the mixture is thoroughly wetted, and there shall be no superfluous water when the briquettes are formed. The cement and sand briquettes shall bear the following tensile stresses :—</p> <p>7 days from gauging—120 lbs. per square inch of section.</p> <p>28 " " " —225 lbs. per square inch of section.</p>

SUPREME COURT OF BRITISH GUIANA.**APPELLATE JURISDICTION.**

THIS 15TH DAY OF AUGUST, 1910.

RAJKALIA, Appellant.

versus

BASDEYEO, Respondent.

This is an appeal from the Stipendiary Magistrate of the Berbice Judicial District who, on a claim made by the respondent to certain ear-rings levied on by the appellant, ordered their return and allowed \$6 as damages with costs.

In his statement of claim the respondent does not claim either as owner or as having a lien thereon but alleges that he is a jeweller and as such had made these articles for certain parties and that they were in his possession at the time of the levy.

The evidence bears out his statement of claim and the witnesses called are the parties who gave him the gold to convert into ear-rings the judgment debtor not being in any way interested therein.

At the close of the respondent's case the appellant called no witnesses but relied on the legal point raised by Counsel in his behalf and which is the reason of appeal now argued, viz., that the ownership not being in the claimant he had at the most only a lien on the goods and therefore no right to interplead.

I agree with Counsel that a lien for work done is not sufficient to establish such a right but the respondent was lawfully in possession of the goods

under the authority of the owners, and, therefore, he is entitled to the same as against the execution creditor of a debtor who has no property therein—(Schroeder vs. Hamott, 28 L.T.N.S. 704).

The appeal is dismissed and the decision of the Magistrate confirmed with costs.

DE COSTA, et al, Appellants.

versus

RODRIGUES, Respondent.

This is an appeal from the Stipendiary Magistrate of the Berbice Judicial District who, in an action for wrongful dismissal, gave judgment for the respondent for \$20 and costs.

The Magistrate found that the errors complained of by appellants were made by respondent owing to hurried work on his part and that he had no intention to cheat.

It is argued by counsel that on this finding judgment should have been entered for the appellants and this is the reason of appeal.

A careful examination of the evidence shows errors in the addition of certain orders before entry into the account book on one occasion when goods to the value of about \$140 were supplied to about twenty-five labourers. These errors are apt to occur with anyone and in fact it is proved that a similar mistake was made by a member of the appellant's firm.

The appellants have failed to justify the respondent's dismissal and the appeal is dismissed with costs.

M. J. BERKELEY, Acting C.J.

SETOHUL, Appellant

versus

DAVIS, Respondent.

This appeal is from the decision of the Stipendiary Magistrate of the Berbice Judicial District who, on a claim for damages by reason of certain cattle straying on respondent's land and destroying and damaging provisions, gave judgment for the respondent for the amount claimed with costs.

The reason of appeal is that the land whereon the cattle strayed is situate in a Cattle District and this being so it is on the respondent to show that his provision ground was fenced in.

The evidence establishes that the land in question forms part of Plantation Bonito which was carved out of Plantation Tartlogie and that for the last twenty-five years or more this Plantation Bonito has been used for planting provisions. The district therefore must be regarded as partly agricultural, and partly cattle farming. As stated by the learned Judge in Pathan-sing vs. Bentley (26.11.04) "once a cattle farm always a cattle farm does not hold good in this instance." Apart from this there is evidence that the fence around this provision ground was in good order shortly before the cattle—which the Magistrate found—on the evidence to belong to the appellant—were rightly seen within the enclosure. This is presumptive evidence that the gap then found and through which the cows made their exit was caused by them. This Court sees no reason to disturb the decision of the Magistrate and the appeal is dismissed with costs.

M. J. BERKELEY, Actg. C.J.

BOODHOO, Appellant

versus

SUCKAREY, Respondent.

This is an appeal from the Stipendiary Magistrate of the West Coast Judicial District who, on a claim made by the appellant for \$10.56 with costs, gave judgment in his favour for \$5.28 from which judgment he appeals.

The evidence shows that the appellant agisted and looked after the defendant's cows from May, 1909, to June, 1910, as alleged by appellant and up to February, 1910, as alleged by respondent.

It is argued that the evidence establishes that the cows remained on the pasture to end of June, that the agreement entered into was never terminated and that the defendant could not question the plaintiff's title.

The Magistrate, in his reasons, states that he does not believe the evidence of the plaintiff or his witness as to the months of March-June.

The appellant admits that he paid the last rent money for the pasture in February but in re-examination says: "I remained in possession from March to June," while the respondent says: "I have been attending to my own cattle since March, 1910," and admits that they are at the same pasture still. Beyond appellant's evidence there is nothing to show

when he gave up possession and as the Magistrate believed respondent's evidence it shows that he was satisfied that appellant ceased to have possession during those months and that respondent himself looked after his cows. It is clear that if the appellant was still in possession and agisted the respondent's cattle the mere fact that he had not paid the rent for these months would not have debarred him from recovering from the respondent. There was evidence on which the Magistrate could find as he did and the appeal is dismissed with costs.

M. J. BERKELEY, Acting C.J.

JOTAN, Appellant,

versus

HOLDER, Respondent.

This is an appeal from the Stipendiary Magistrate of the Berbice Judicial District who convicted the appellant for that he was found in possession of a certain animal, to wit, a dark brown steer under circumstances of suspicion (sect. 97 of Ordinance 17 of 1893).

The evidence shows that the steer was tied in appellant's place and on the approach of witnesses he was seen to run up to the animal and endeavour to loose the rope, he subsequently made contradictory statements as to how it came into his possession.

It is argued that there is no evidence of possession and therefore there cannot be suspicious circumstances and that the mere finding of the animal in appellant's pen does not show possession. The Court is of opinion that this latter fact coupled with his conduct shows possession under circumstances of suspicion, which cast upon him the onus of satisfying the Court that he came by the animal lawfully. This the Magistrate correctly held he had failed to do.

Appeal dismissed with costs.

M. J. BERKELEY, Actg. C.J.

THIS 20TH DAY OF AUGUST, 1910.

GOMES

versus

VERBEKE.

This is an appeal from the Stipendiary Magistrate of the Georgetown Judicial District who, in an action for trespass to goods claiming \$24 as damages, gave judgment for the respondent for \$15, and costs.

The reasons of appeal argued in this Court are (1), that the decision is erroneous in point of law inasmuch as (a) the appellant was not properly before the Court, she being a married woman married by *ante-nuptial* contract before the Married Persons Property Ordinance, 1904, her husband not being joined with her nor summoned in the said action; (b) there was no evidence of sale and delivery as to exclude the same from the landlord's hypothec, (c) the evidence disclosed that the sale savoured of fraud and collusion between the respondent and Edith Paul, (d) the evidence disclosed collusion between the last named two and Margaret Chin to defeat appellant's claim for rent, (e) notwithstanding alleged sale the vendor never parted with the possession of the said goods.

Reasons 2 and 3 were abandoned by the appellant. It appears from the proceedings that the point raised by reason 1 (a) was taken before the Magistrate and overruled. The *ante-nuptial* contract is laid over and shows that the appellant was married in 1885.

Ordinance No. 12 of 1904, sect. 7(2) provides that the husband of a married woman need not be made a party to any action brought against her, while section 3 declares that matrimonial rights with regard to property (which by the interpretation clause includes a right of action) arising under any marriage solemnized before the commencement of the Ordinance shall, except otherwise expressly provided, be governed by the law applicable thereto as if the Ordinance had not been passed. This law is the common law of the colony under which a woman married under an *ante-nuptial* contract is entitled to be assisted as far as need be by her husband in an action brought against her unless otherwise expressly provided in the *ante-nuptial* contract which was not done in the present case. The appellant, therefore, was not properly before the Court. This being so it is unnecessary to deal with the other reasons argued.

Appeal allowed with costs.

4. The address of every surety must be given. No Firm can be accepted as surety.

5. The Tenderer will enclose the original bearing his name and the names of his Sureties in the prescribed Form, in a sealed envelope addressed to the Government Secretary, on the outside of which there shall be written the words:—

6. Tenderers are advised to send these documents by Post registered.

7. Any Tender sent to the Chairman bearing on its duplicate or on the sealed envelope any name, note or mark by which the Tenderer can be identified will be rejected.

9. Tender may be made to supply the articles comprised in this class to all or to any one or more of the Institutions or Departments of the Service.

10. The Government does not bind itself to accept the lowest or any Tender, or the whole of any Tender, but may accept part only of any Tender and the acceptance of a Tender or any part thereof, will be conditional on security being given to the satisfaction of the Governor.

11. Any Department or branch thereof may be excluded, partially or wholly, from the operation of the Contract at the discretion of the Government, at any time during the continuance of the Contract.

12. The Government retains the right of rejecting any Tender without assigning any reason.

13. The names of the successful Tenderers will be published in the "Gazette."

14. Contracts must be duly executed on or before the 31st January, 1911, at the Registrar's Office, at the expense of the Contractor, and no account will be paid under any Contract until its execution. The Contractor must also furnish a copy of the Contract to the Auditor General if required.

15. All articles are to be supplied on requisition from the Institution or Department requiring them. They are to be of the specified quality or pattern and subject to the approval of the Officer in charge or the Head of the Department concerned. Any Articles not in accordance with the Contract will be returned, and if not replaced within a reasonable time by the Contractor by an article in accordance with the Contract, the article may be obtained elsewhere and charged to the Contractor.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

All goods are to be delivered free to the different Institutions, except the Potaro Dispensary, in which case the Contractor will only be required to pay the freight as far as Wismar.

19. All official preparations are to be of the Standard strength of the latest British Pharmacopœia.

20. Detailed accounts are to be rendered monthly; and in duplicate or triplicate, as required by the Head of the Department supplied.

Before the close of such financial year notices will be published in the "Official Gazette" and local papers calling upon Contractors to render accounts and to collect the sums due to them, on or before a certain date to be fixed in such notice.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

21. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to remove goods so rejected after he shall have received notice of rejection.

22. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

23. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

24. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be weighed, or their respective quantities otherwise ascertained and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

25. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

26. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and also the right to purchase and obtain through the Crown Agents for the Colonies instead of through the Contractors any goods for which the Contract may be accepted; and any such purchases shall not annul or invalidate the Contract.

THE following Bill, which it is proposed to introduce into the Court of Policy, is hereby published for general information.

By Command,

J. HAMPDEN KING,
Acting Government Secretary.

THE MINING (MINERAL OIL) BILL, 1910.

EXPLANATORY MEMORANDUM.

The object of this Bill is to enable regulations to be made with regard to mineral oil, which it is hoped will soon be found in the Colony. The Mining Ordinance 1903 (No. 1 of 1903) provides only as to gold, silver, valuable minerals and precious stones, but is silent as to mineral oil, which when the above Ordinance was passed no one had any reason to believe existed here. The Bill adds mineral oil to the substances to which the Mining Ordinance applies and under that Ordinance as amended by the Bill, will enable regulations to be made for prospecting for oil, and for working it if and when found.

A BILL ENTITLED "AN ORDINANCE TO AMEND THE
"MINING ORDINANCE, 1903, WITH RESPECT TO
"MINERAL OIL AND OTHER SUBSTANCES."

BE it enacted by the Governor of British Guiana with the advice and consent of the Court of Policy thereof, as follows :—

1. The Mining Ordinance, 1903, shall apply to mineral oil, asphalt, coal and other substances of a like nature in the same manner as if the same were named therein in addition to gold, silver, valuable minerals and precious stones, and no mineral oil, asphalt, coal or other substance of a like nature shall be won or obtained from any Crown land in this colony save under the provisions of the said Ordinance.

The Mining Ordinance to apply to mineral oil, etc.

2. Whenever in the Mining Ordinance, 1903, gold, silver, valuable minerals and precious stones are mentioned, mineral oil, asphalt, coal and other substances of a like nature shall also be deemed to be mentioned.

Mineral oil, etc., to be deemed to be mentioned in Mining Ordinance.

3. This Ordinance may be cited as the Mining (Mineral Oil) Ordinance, 1910, and shall be construed as one with the Mining Ordinance, 1903.

Board of Agriculture Notices.

Georgetown, Demerara,
29th August, 1910.

THE following Report on the area under cultivation in British Guiana, with varieties of Sugar-Cane other than the Bourbon, is published for general information.

OSCAR WEBER,
Secretary, Board of Agriculture.

VARIETIES OF SUGAR-CANE OTHER THAN BOURBON IN BRITISH GUIANA, 1910-1911.

The following is a summary compiled from the returns rendered to the Sugar-Cane Experiments Committee of the areas under cultivation with varieties of sugar-cane other than Bourbon for the crops of 1910-1911.

With three exceptions returns have been furnished by every estate in the colony.

Varieties of sugar-cane other than Bourbon are being grown on areas of more than one acre on 22 Plantations in the County of Demerara, 5 in the County of Essequibo, and 10 in the County of Berbice ; or on 37 Plantations in British Guiana.

Many of the Plantations which are growing varieties of sugar-cane on relatively large scales have nurseries of several or of many varieties, the cultivation of which it is intended to gradually extend.

The areas occupied by varieties other than Bourbon on the estates vary very greatly from 3 acres as the minimum on any estate to 7,246 as the maximum.

One Plantation in Demerara has an area of 7,180 acres occupied by seedling varieties of sugar-cane, while one in Berbice has 3,058 acres similarly occupied.

The following shows the various acreages devoted to the varieties other than Bourbon :—

The total area of 41,004 acres when compared with 38,972 in 1909-1910, 32,762 acres in 1908-1909, with 28,801 in 1907-1908, with 21,481 acres in 1906-1907, with 14,743 acres in 1905-1906, with 12,860 in 1904-1905, and with 9,518 in 1903-1904, shows increases upon them at the rates 5.1, 25.1, 42.3, 90.8, 178.0, 218.7, 328.5 per cent., respectively.

The following shows the varieties other than Bourbon which are at present being cultivated in British Guiana on Sugar Plantations on areas of more than one acre :—

In addition to the foregoing, three thousand three hundred and eighty-seven acres are returned as occupied with mixed varieties or with nurseries of new varieties of canes.

Out of 41,004 acres returned as being occupied with varieties of sugar-cane other than Bourbon 39,848 acres are being cultivated with new varieties raised from seed. Of these 11,109 acres, equal to 27.1 per cent. of the total area, are planted with new varieties of sugar-cane raised in Barbados by Mr. J. R. Bovell.

On several estates in addition to the area occupied solely by varieties of sugar-canes other than Bourbon, there are wide areas which are planted with Bourbon largely interspersed with newer kinds of sugar-canes.

The following tables show the varieties of sugar-cane other than Bourbon which have been returned as being cultivated on areas amounting to over 100 acres during the crops of 1902-1910 :—

THE following Synopsis of the pamphlet on Rice Cultivation issued on the 19th May, 1910, is published for the information of East Indians engaged in the cultivation of rice

OSCAR WEBER,
Secretary, Board of Agriculture.

इस छोटी किताब में धान कि खेतीबारी कि सब हाल खुलासा लिखा है ॥

मुनासिब है कि धान ठीक जून पर रोपे जिस में अच्छा धान पैदा होवे ॥ इस मुसूक में जरूरत है कि बेशाख महीना में जरूरी करे जिस में भरौसा अच्छा धान होवे ॥

रोपन चाहिये कि चार या छः हफ्ता जरूरी के पीछे ॥

खेत का तैयारी ॥

जिस खेत में धान रोपे बिहतर है कि बंद बंद बनाकर धान बाँवे और मेड़ दो या तीन फुट चौड़ा और दो फुट उंचा बनावे । बंद बराबर बनावे और बनदोबस्त करे जिस से पानी बंद में आवे और निकले ॥ जब मीड़ बनावे तो ठीक से तैयार करे जिस में तले कि धरती न खोदे क्योंकि तले कि माती खोदने से कम धान उपजता है ॥

खेतीबारी ।

बोहन जगह चहोये कि पहिला जोटे और अच्छा जमीन मि होवे । जमीन खेत कि हल से खोदावे या फाँक से अर्धा फुट गहिरा चार या छः हफ्ता धान बाने कि आगे करावे ॥ जब बोहन जगह खोद चुके तब तुरन्त पानी से दूबादे । और बराबर करे रोपने के लिये । जबतक बोहन जगह में बिचा जमतो है धान कि बंद चहोये कि खोदा जावे ॥

बिचा का बराब्रा ॥

बिहतर है कि खूब अच्छा बिचा बोवे । अगर खराब बिचा बोवाजाए तो कम धान उपजेगा । कोई तरह से मिलावट धान न बोवे क्योंकि ऐसी अनाज महाजन के हाथ में उतनी पैसा न बेचायेगा ॥

बिचा का बोआई ॥

एक एकर चने दो बिचा जमीन रोपने में आठ या दस गालोन धान कि बिचा बस होगा ॥ धान के बिचा चहोये कि एक बसता में भरकर चंच के पानी में चौबीस घण्टा दूबादे जिस में भागे उसके बाद चंच से नीकालकर झूड़ा जगह छाया के तले धार दे और पत्ते धाँक दे दुसरा चौबीस घण्टा तक तब उसके पिछे बसता से बिचा निकालकर छोट देवे हलका से बोहन जगह में जब बिचा छींटे बोहन जगह में तो चहोये कि कुछ पानी जमीन में न रहे नहोंतो पानी में सब बिचा गल

जएगा । जब बिया जमते होए तब चहोये कि थोड़ा थोड़ा पानी उस में चढ़ा देवे ॥ बिलकुल धान कि बिया एक दमसे न बो लेकिन थोड़ा एक हफता बोवे फिर थोरा दूसरा हफता में बोवे इसी तरह से बो जावे जबतक सब बिया न बो चके ॥ इस टौर से बिया और सुबिता से बो जाएगा ॥

रोपाई

जब बीहन चार हफते के हो जए तब रोपने का योग है पर जब छः हफते के होवे है तब रोपने के लायक नहीं है क्योंकि उनको नाचे गांठी होने लगे ॥ जब बीहन जगह से बिया निकाले तो खबर दारो से करे ॥ बीहन को नहीं उखाड़े लेकिन उसके जड़ के चारों तरफ कि मातो धिला कर देवे दोनो हाथ कि उंगलीयों से । जिस में दूना हाथ भर एक दम से बीहन मातो जड़ समेत निकल आवे ॥ बिलकुल बीहन कि मातो धी देवे और अंटीया २ कोई एक हजार धोवा बीहन के बनावे और खेत में लेजावे रोपने के वास्ते ये अंटीया खोलकर हाथ भर बीहन निकाले बाकी मातो धोवे बीहन कि मंजु तीन या चार इंच मोचकर दो तीन बीहन एक कूद में रोपे कोई नौ या बारह इंच अलग में और एक या दो इंच गहीरा खाली मीटा मीटा बीहन रोपना चहोये और पटला पटला बीहन बीगदे ॥

बीहन कि रोपाए कि पोछे ॥

जब बीहन खेत में बो गया है तब चहोये कि सोचने कि पानी अगर मिले तो दो इंच पानी खेत में चढ़ा देवे लेकिन दो इंच से ज़ियादा पानी नहीं चढ़ावे ॥ इसके पिछे जब बीहन बढ़ने लगे दो या छः इंच तक पानी खेत में चढ़ा सकते ॥ जब बीहन बढ़ने लगे तब सोचने होंगे । सोचने चाही शुरू में जब बीहन बढ़ने लगे है ॥

पकने कि समें ॥

जब धान कि बाली कि रंग बदले और बाल में दाना पड़तो तो चाहोये कि खेत कि पानी तुरन्त निकाले नहीं तो धान कि कड़ा अनाज न पड़े गा ॥ चिड़िया परिन्द दुष्ट होते हैं जब धान में दूध लगता और जब धान पकता है इनके चहोये कि कोई हिमाव से उरा देवे ॥

Cement.

1. The cement shall be prepared by intimately mixing together calcareous and argillaceous materials, burning them at a clinkering temperature and grinding the resulting clinker. No addition of any material shall be made after burning, except when desired by the Manufacturer and if not prohibited in writing by the Consumer, in which case calcium sulphate or water may be used. The cement, if watered, shall contain not more than two per cent. of water, whether that water has been added or has been naturally absorbed from the air. If calcium sulphate is used, not more than 2 per cent. calculated as anhydrous calcium sulphate of the weight of the cement shall be added.

Testing at
P.W.D. or
sampling at
Manufacturer's
Works.

2. Cement will be tested ordinarily at the Public Works Department, but should it be deemed more convenient that the samples for testing should be taken at the Manufacturer's works before delivery,

the latter shall, in that event, afford full facilities to the Inspector appointed by the Government to sample the cement as he may desire at the said works, and subsequently to identify each parcel, as it may be despatched, with that sample by him. No parcel shall be sent away unless a written order has been previously received by the Manufacturer from the Inspector, to the effect that the material in question has been approved.

3. The cement shall be ground to comply with the following degrees of fineness, viz :—

Fineness and
Sieves.

The residue on a sieve $76 \times 76 = 5,776$ meshes per square inch, shall not exceed 3 per cent.

The residue on a sieve $180 \times 180 = 32,400$ meshes per square inch, shall not exceed $22\frac{1}{2}$ per cent.

The sieves shall be prepared from standard wire, and the size of the wire for the 5,776 mesh shall be .0044 inch, and for the 32,400 mesh, .002 inch. The wire shall be woven (not twilled), the cloth being carefully mounted on the frames without distortion.

4. The specific gravity of the cement shall be not less than 3.10 when sampled after delivery.

Specific
gravity.

5. The cement shall comply with the following conditions as to its chemical composition. There shall be no excess of lime, that is to say, the proportion of lime shall be not greater than is necessary to saturate the silica and alumina present. The percentage of insoluble residue shall not exceed 1.5 per cent.; that of magnesia shall not exceed 3 per cent.; and that of sulphuric anhydride shall not exceed 2.5 per cent.

Chemical
Composition

6. The quantity of water used in gauging shall be appropriate to the quality of the cement, and shall be so proportioned that when the cement is gauged it shall form a smooth, easily worked paste, that will leave the trowel cleanly in a compact mass. Fresh water shall be used for gauging. The cement gauged as above shall be filled, without mechanical ramming, into moulds of the form approved by the British Engineering Standards Committee, each mould resting upon an iron plate until the cement has set.

Mode of
gauging.

When the cement has set sufficiently to enable the mould to be removed without injury to the briquette, such removal is to be effected. The said briquette shall be kept in a damp atmosphere for 24 hours after gauging, when it shall be placed in fresh water and allowed to remain there until required for breaking, the water in which the test briquettes are submerged being renewed every seven days.

7. Briquettes of neat cement shall be gauged for breaking at 7 and 28 days, respectively. For breaking, the briquette shall be held in strong metal jaws. The briquettes shall bear on the average not less than the following tensile stresses before breaking :—

Neat test.

7 days from gauging—400 lbs. per square inch of section.

28 " " " —500 lbs. per square inch of section.

The increase from: 7 to 28 days shall not be less than:—

25 % when the 7 day test falls between 400 lbs. to 450 lbs. per square inch of section.

20 % when the 7 day test falls between 450 lbs. to 500 lbs. per square inch of section.

15 % when the 7 day test falls between 500 lbs. to 550 lbs. per square inch of section.

10 % when the 7 day test is 550 lbs. per square inch or upwards.

8. The cement shall also be tested by means of briquettes prepared from one part of cement to three parts by weight of dry sand, the said briquettes being of the shape described for the neat cement tests; the mode of gauging and the filling of the moulds shall also be similar. The proportion of water used shall be such that the mixture is thoroughly wetted, and there shall be no superfluous water when the briquettes are formed. The cement and sand briquettes shall bear the following tensile stresses :—

Sand Test.

7 days from gauging—120 lbs. per square inch of section.

28 " " " —225 lbs. per square inch of section.

Acceptance.	The increase from 7 to 28 days shall not be less than 20 per cent.

Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

24. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be weighed, or their respective quantities otherwise ascertained and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

25. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

26. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and also the right to purchase and obtain through the Crown Agents for the Colonies instead of through the Contractors any goods for which the Contract may be accepted; and

any such purchases shall not annul or invalidate the Contract.

Government Notices.

GOVERNMENT SECRETARY'S OFFICE,
Georgetown, Demerara,
6th September, 1910.

116. HIS Excellency the Governor has been pleased to grant to Harry Warner Humphrys, Esquire, 5th Class Officer, Department of Lands and Mines, vacation leave of absence on full salary for three months from the 1st instant.

117. 6th September, 1910.
REFERRING to Government Notice No. 260 of the 24th May last, Henry Phineas Isaacson, Esquire, 3rd Class Officer of Customs, has returned to the Colony from leave of absence and resumed the duties of his Office on the 1st instant.

By Command,
J. HAMPDEN KING,
Acting Government Secretary.

SUPREME COURT OF BRITISH GUIANA,

APPELLATE JURISDICTION.

THIS 3RD DAY OF SEPTEMBER, 1910.

DE FREITAS
versus
FAIRBAIRN, P.C.

This is an appeal from the Stipendiary Magistrate of the Berbice Judicial District, who convicted the appellant for refusing to sell to the respondent for the purpose of analysis, oleomargarine which was exposed for sale by retail in a certain shop contrary to section 20 of Ordinance No. 9 of 1892.

The reasons of appeal argued in Court are (1) that there was no evidence that appellant was the person who exposed for sale; (2) that there was no legal evidence that oleomargarine was exposed for sale at all or by retail; (3) that there was no legal evidence that appellant refused to sell oleomargarine and (4) that the decision is unwarranted by the evidence.

The facts disclosed by the evidence show that the appellant served in the shop in question which belonged to one Martins and that on 27th June, 1910, he refused to sell to the respondent from a keg three-fourths empty an article exposed for sale which he had informed the respondent was oleomargarine.

With regard to reason 1, it is argued that the charge as brought lies only against the owner of the shop and that the other offences created by the same section are intended to apply to an employee. The fact that our local Ordinance provides for the punishment of a person having the power to sell or having the charge of such food cannot of itself exonerate an employee when charged with exposing for sale. There was evidence that the assistant clerk was just applied to and that he referred respondent to the appellant. This shows that appellant was in charge of the shop and, therefore, as such was properly held to have exposed for sale.

With regard to the other reasons urged in this appeal this Court cannot agree with counsel that in view of section 15 of the Ordinance there is no legal evidence that oleomargarine was exposed for sale at all or by retail. This section provides that any substance purporting to be butter not being marked oleomargarine shall be presumed to be exposed for sale as butter. There is direct evidence including that of the appellant that the cover of the kegs was marked. The appellant would not hand this cover to the respondent but told him it was labelled having previously dipped his finger in the substance with the remark "this is good oleomargarine" although before the Magistrate he says it was marked "Morteaux P.Y." The Magistrate believed the evidence of the police which would warrant him in finding as he did that the contents of the kegs was oleomargarine and so marked. The quantity seen in the keg shows that it was sold by retail. It is unnecessary to express an opinion as to whether or not the word "presumed" in section 15 (2) amounts to an irrebuttable presumption as it follows from the above that the evidence as to the refusal to sell oleomargarine was legal and, therefore, that the decision of the Magistrate was warranted by the evidence.

Appeal dismissed with costs.

ORDINANCE NO. 15 OF 1910.

AN ORDINANCE to provide for the appointment of a Public Trustee. A.D. 1910.

[10th September, 1910.]

BE it enacted by the Governor of British Guiana, with the advice and consent of the Court of Policy thereof, as follows :—

ESTABLISHMENT OF PUBLIC TRUSTEE.

1.—(1.) The Governor may appoint a fit and proper person to be Public Trustee under this Ordinance. Office of Public Trustee.

(2.) The Public Trustee shall be a body corporate under that name with perpetual succession, and may sue and be sued under the above name.

Official Receiver to be Public Trustee till other appointment made.
No. 6 of 1905.

2. Unless and until the Governor appoints some person to be Public Trustee, the Official Receiver appointed under the Official Receiver's Ordinance, 1905, shall be the Public Trustee, and any person lawfully discharging the duties of Official Receiver under the said Ordinance, shall have all the rights, powers and liabilities, and may discharge any of the duties of the Public Trustee.

POWERS AND DUTIES OF PUBLIC TRUSTEE.

General powers and duties of Public Trustee.

3.—(1.) Subject to and in accordance with the provisions of this Ordinance and Rules made thereunder the Public Trustee may, if he thinks fit,

- (a) act in the administration of the estates of deceased persons ;
- (b) act as executor or administrator of a will ;
- (c) act as guardian or curator of the property of any minor or other person under disability ; and
- (d) take possession of and administer the estate of any person who is absent from the colony and who is not fully represented by any attorney in the Colony, and who has left debts unpaid.

(2.) Subject to the provisions of this Ordinance, and to the rules made thereunder, the Public Trustee may act either alone or jointly with any person or body of persons in any capacity to which he may be appointed in pursuance of this Ordinance, and shall have all the same powers, duties, and liabilities, and be entitled to the same rights and immunities and be subject to the control and orders of the Court, as a private person acting in the same capacity.

(3.) The Public Trustee may decline, either absolutely or except on the prescribed conditions, to accept any trust, but he shall not decline to accept any trust on the ground only of the small value of the trust property.

(4.) The Public Trustee shall not accept any trust which involves the management or carrying on of any business, except when acting under section nine of this Ordinance or except in the cases in which he may be authorized to do so by rules made under this Ordinance, nor any trust under a deed of arrangement for the benefit of creditors.

4.—(1.) A.D. 1910.]

PUBLIC TRUSTEE.

[No. 15.]

(2.) On the Public Trustee undertaking by declaration in writing signed by him and deposited in the office of the Registrar of British Guiana to administer the estate he shall have the same power as if he had been appointed by a last will of the deceased person to be executor.

(3.) For the purposes of the administration the Public Trustee may exercise such of the administrative powers and authorities of the Supreme Court as may be conferred upon him by Rules under this Ordinance, subject to such conditions as may be imposed by the Rules.

(4.) Rules shall be made under this Ordinance for enabling the Public Trustee to take the opinion of the Court on any question arising in the course of any administration without judicial proceedings, and otherwise for making the procedure under this section simple and inexpensive.

(5.) Where proceedings have been instituted in any Court for the administration of an estate, and by reason of the small value of the estate it appears to the Court that the estate can be more economically administered by the Public Trustee than by any other person, or that for any other reason it is expedient that the estate should be administered by the Public Trustee instead of by any other person, the Court may order that the estate shall be administered by the Public Trustee, and thereupon (subject to any directions by the Court) this section shall apply as if the administration of the estate had been undertaken by the Public Trustee in pursuance of this section.

(2.) *As Executor.*

5. The Public Trustee may by that name or any other sufficient description, be appointed executor of any will by the testator, in the same manner as if he were a private executor and in such case he shall have the same powers as if he were a private executor.

(3.) *As Guardian and Curator.*

6. The Public Trustee may by that name or any other sufficient description be appointed by will or by order of the Court guardian or curator of the property of any minor or other person under disability in the same manner as if he were a private person and in such cases he shall have the same powers as if he were a private guardian or curator.

Appoint-
ment of Pub-
lic Trustee

and curator.

(4.) *In the Administration of Absentee's Estates.*

7.—(1.) Any creditor of a person who is absent from the Colony and who is not represented by any attorney in the Colony appointed under a duly registered power of attorney may apply to the Public Trustee to take possession of and administer the estate of such absent person.

Creditor may
apply to Pub-
lic Trustee
to administer

absentee.

(2.) Upon such application being made and upon the Public Trustee being satisfied that such person is absent from the Colony, and that he is not represented by any attorney in the Colony appointed as aforesaid, and that the applicant is a *bona fide* creditor of such person, the Public Trustee may take possession of the estate: Provided that the Public Trustee shall not take possession of any such estate unless he is satisfied that the assets of such estate are probably sufficient to defray the cost of taking possession thereof and administering it.

Absentee to be communicated with if possible.

8. The Public Trustee before taking possession under this Ordinance of the property of any absent person who is known and can be communicated with, shall communicate in writing with such person, and shall not interfere, except in case of an emergency which in the opinion of the Public Trustee makes it necessary to take possession of the estate for the protection of the creditors of such absent person, and in such case the Public Trustee shall take immediate possession.

Proceedings on taking possession of estate of absent owner.

9.—(1.) Where the Public Trustee takes possession of the estate or property of such absent person, he shall give immediate intimation thereof by notice published in the *Gazette* and in one newspaper at least three times, with an interval of a week between each publication.

(2.) The Public Trustee shall use due diligence to ascertain where such absent person is and his place of residence and address, and, if the same can be ascertained, shall use due diligence to inform such person that he has so taken possession, and shall require him to appoint an attorney in the Colony to represent his interests.

(3.) Where the place of residence and address of such person cannot be ascertained, the Public Trustee shall apply to the Court for directions.

(4.) Where such person refuses or neglects, without sufficient cause, to appoint an attorney in the Colony within a reasonable time after being required to do so, the Public Trustee shall apply to the Court for directions.

(5.) Where the Public Trustee applies to the Court under this section, the Court, if it is satisfied—

(a) That the place of residence and address of such person cannot be ascertained; or

(b) That such person has been afforded sufficient opportunity to enable him to appoint an attorney in the Colony and neglects to do so;

shall direct that the estate or property shall be forthwith realized, and after the expiration of such time as may be fixed by the Court the Public Trustee shall deal with such proceeds and distribute the

same amongst the creditors of such person in the same manner as if such person had been adjudged insolvent.

(6.) Where the Court is not so satisfied or where such person is under any disability, the Court shall give such directions as the circumstances may require.

(7.) Until the Public Trustee receives directions from the Court, he shall administer such estate or property according to the usual legal course of administration in this Colony by attorneys of absent parties :

NOTICE is hereby given that the abovementioned petition dated the 11th day of August, 1910, has been presented to His Honour Maurice Julian Berkeley, acting Chief Justice of British Guiana, by the abovenamed Georgiana M. Nathan and J. A. Scott, praying that a new grosse should be given off of a certain Mortgage dated the 20th day of April, 1904 executed by Thomas Wardle, to and in favour of Alexander McDowell Nathan and vested with right of First Mortgage on the right of the said Thomas Wardle to occupy and otherwise enjoy and use Plantations Rising Sun, Washington, Hope and Golden Fleece, situate on the west coast of the county of Berbice, aforesaid, in terms of a certain agreement of lease made between James Jameson, as lessor, and the said Thomas Wardle, as lessee, dated 17th December, 1906, and deposited in the Registrar's Office of British Guiana on the 23rd day of February, 1904, on all the buildings, erections, machinery, cultivation and further appurtenances on and belonging to the said plantations and each of them; on all the live and dead stock now being on the said plantations and each of them and the progeny of the said live stock; on the rice and other products which may from time to time be reaped on the said plantations and each of them; on all the household and other furniture, ware and effects now in the principal dwelling house, all the property of the said Thomas Wardle; on all other buildings, erections, machinery, appurtenances, live and dead stock, furniture, ware and effects, which may hereafter be brought in or taken on the said plantations or either of them either in addition to or in substitution for those at present existing and being on the said plantations and each of them and on all the rents due or to become due and the produce received or to be received by the said Thomas Wardle in respect of the sub-letting of portions of the said plantations and each of them by the said Thomas Wardle.

Board of Agriculture Notice.

Georgetown, Demerara,

9th September, 1910.

THE following leaflet, prepared by the Department of Science and Agriculture, is published for general information.

OSCAR WEBER,
Secretary, Board of Agriculture.

THE PREPARATION OF SEED BEDS FOR PARA RUBBER.

For the guidance of those purchasers of Para rubber seeds who contemplate raising their own plants, the following brief notes on the preparation of seed beds have been prepared :—

The position for these beds should be carefully selected. They should be made in positions sheltered from strong winds. If there are any trees in the place selected they should be trimmed so as to afford a uniform, though not dense, shade, but if there are no trees, shading of the beds must be provided by erecting shelters of posts and cross rails lightly covered with coconut or "cokerite" palm leaves. The leaves on these shelters must not be dense, and will have to be removed gradually at a later date in order to harden the plants and accustom them to direct sunlight.

If the place selected is already laid out in two or three rood beds, such as are found in cane-fields or plantain farms, it will be advisable to run the seed beds across these permanent beds in order that satisfactory drainage can be obtained. All bush or weeds should be removed and the drains thoroughly cleaned. Then the whole beds should be deeply forked and marked off into one rood sections with bed drills two feet wide between the different sections. Each section should be divided into two 5-foot nursery beds with a 2 ft. 4 ins. footpath in between them for working purposes, while it would also be advisable to leave a 2-3-foot parapets along the sides of every alternate drain so that access may easily be had to the beds.

When these sections have been lined out and the shelters erected, the preparation of the nursery beds must receive attention. The soil of the nursery beds should be broken up. Ashes, sand or ground "clinker" from the factory furnaces should be spread on the top of the nursery beds to a depth of $\frac{1}{2}$ -1 inch, and at least three or four inches of well rotted manure or leaf mould should then be added. The whole of this addition of sand and humus must be thoroughly worked in the top of the nursery beds to a depth of 6 or 8 inches as it is essential that the soil of these beds should be light and friable and that they when completed should be at least 6 inches above the level of the footpaths, in order that efficient drainage of wash-water may be provided.

When the soil of the beds has been well prepared, it should be lightly pressed down by means of a flat board. The seeds should then be sown and should be placed horizontally with the groove downwards. They should be pressed down gently to a depth of not more than half an inch and should be lightly covered either by means of a small rake or by scattering a thin layer of fine earth over them. After sowing is finished, the seeds must not be more than one inch deep. They should be sown eight inches apart in rows that are separated by one another by eight inches across the beds. After sowing, the beds must be watered, and the watering must be continued regularly throughout the whole time the seedlings are growing unless sufficient rain is falling. If it is desired to plant the seedlings out on an early date, the seeds may be planted closer than 8 inches by 8 inches, and the seedlings when about two weeks old should be transferred to baskets or boxes. When it is intended to leave the plants in the beds and to transplant as "stumps" of 1 to 1½ years in age, the seeds should be sown from 10 to 12 inches apart in order to give the plants room for development.

The best time to plant "stumps" is when they are 3-4 feet high with a diameter of about half inch. If they are allowed to grow bigger than this, straight stems cannot easily be obtained. In transferring "stumps" from the nursery beds to the fields, they should be cut back 6 inches to one foot to a height of 2 ft. 6 ins. to 3 ft. 6 ins., and the roots should be roughly trimmed. They should be taken to the fields in bundles, and on no account must the roots be allowed to become dry. Seedlings in baskets should have their baskets split on both sides and removed before they are planted out if the best results are to be expected.

In newly cleared forest land the method of making up beds should be similar to that described above except that perhaps so much manure or leaf-mould will not have to be added. The beds may be 100 feet long by 5 feet wide with paths in between. Cross drains between the different series of beds must be provided and small drains to carry off wash-water between every two or three parallel beds. An effort should also be made to have the centres of the beds higher than the edges.

WARNING.—*If good germination is to be expected, all Para rubber seeds must be sown within one week of their receipt in the Colony. Some of the seeds are expected about the middle of October, and therefore all beds should be ready before that time.*

SUPREME COURT OF BRITISH GUIANA.

LIMITED JURISDICTION.

THIS 9TH DAY OF SEPTEMBER, 1910.

DA SILVA
versus
VIEIRA.

This is an action to prevent the sale at execution of lot 34, Second Avenue, Bartica, Essequibo river, without reserving a lease of the said property made to the plaintiff and without excepting therefrom the buildings and erections thereon the property of the plaintiff.

The only witnesses examined are the plaintiff himself and the carpenter who built the house and witnessed the lease.

The Court finds on the facts that there was collusion between the plaintiff and Gouveia to defraud the creditors of the latter which brought about the alleged lease.

As to the buildings it is stated by counsel for the defendant that these were not levied on and it appears that they are not mentioned in the bailiffs return. It would seem, however, that where there are buildings on land taken in execution and which are not included in the levy they should be specially exempted. The Court directs that this be done in the present case.

The opposition as to the non-reservation of the lease is dismissed with costs.

In the matter of the petition of Georgiana M. Nathan and J. A. Scott, both of England, in their quality as the executors and trustees under the last will and testament of Alexander McDowell Nathan, deceased.

NOTICE is hereby given that the abovementioned petition dated the 11th day of August, 1910, has been presented to His Honour Maurice Julian Berkeley, acting Chief Justice of British Guiana, by the abovenamed Georgiana M. Nathan and J. A. Scott, praying that a new grosse should be given off of a certain Mortgage dated the 20th day of April, 1904 executed by Thomas Wardle, to and in favour of Alexander McDowell Nathan and vested with right of First Mortgage on the right of the said Thomas Wardle to occupy and otherwise enjoy and use Plantations Rising Sun, Washington, Hope and Golden Fleece, situate on the west coast of the county of Berbice, aforesaid, in terms of a certain agreement of lease made between James Jameson, as lessor, and the said Thomas Wardle, as lessee, dated 17th December, 1900, and deposited in the Registrar's Office of British Guiana on the 23rd day of February, 1904, on all the buildings, erections, machinery, cultivation and further appurtenances on and belonging to the said plantations and each of them; on all the live and dead stock now being on the said plantations and each of them and the progeny of the said live stock; on the rice and other products which may from time to time be reaped on the said plantations and each of them; on all the household and other furniture, ware and effects now in the principal dwelling house, all the property of the said Thomas Wardle; on all other buildings, erections, machinery, appurtenances, live and dead stock, furniture, ware and effects, which may hereafter be brought in or taken on the said plantations or either of them either in addition to or in substitution for those at present existing and being on the said plantations and each of them and on all the rents due or to become due and the produce received or to be received by the said Thomas Wardle in respect of the sub-letting of portions of the said plantations and each of them by the said Thomas Wardle.

The grounds of the said application being that the said petitioners as the executors and trustees under the last will and testament of the said Alexander McDowell Nathan are the legal holders of the said Mortgage, that the Mortgage debt is still unpaid and that the grosse of the said Mortgage has been lost and is not now in the possession of the petitioners.

Any person who desires to oppose the granting of the said application is hereby required to file at this Office his reasons of opposition thereto on or before the 3rd day of December, 1910, after which date if no opposition shall have been entered application will be made for a final order on the said petition granting and allowing the prayer thereof.

TENDERS FOR THE SUPPLY OF IMPORTED TIMBER FOR THE PUBLIC SERVICE OF THE COLONY IN BERBICE.

WITH reference to "Official Gazette" Notice dated 3rd August, 1910, calling for Tenders for Supplies for the Public Service of the Colony for 1911, fresh Tenders are invited for the supply of **IMPORTED TIMBER (CLASS I.)**—White Pine Boards and Planks; Pitch Pine Boards and Planks; and Pitch Pine Scantlings, for the Public Service of the Colony for Berbice for the Calendar Year, 1st January to 31st December, 1911.

Tenders must be sent to the Officials named hereinafter, not later than 12 o'clock, noon, on Thursday, the 29th September, 1910.

2. Printed Forms of Tender containing Schedule of Articles, with Terms and Con-

ditions of Contract, may be obtained from the Treasury, Georgetown, and New Amsterdam, and from the Post Office, Suddie, on payment of 24 cents per set, of original and duplicate and paper of conditions, &c., and no Tender will be considered unless made on such Forms.

3. The Forms will be in duplicate, machine numbered. The original will bear the name of the Tenderer and the particulars of the prices tendered, the duplicate only the particulars of the prices tendered without any mark or sign except the machine number to identify the Tenderer.

4. The original of every Tender must be accompanied by the names of two responsible persons who are willing to become bound together with the Tenderer to execute the Contract, to be drawn up in the Registrar's Office, in the terms of this Advertisement, and in accordance with the conditions and specifications set out in or attached to the Tenders, for the due supply of the Articles named in the Tender. The address of every surety must be given. No Firm can be accepted as surety.

5. The Tenderer will enclose the original bearing his name and the names of his Sureties in the prescribed Form, in a sealed envelope addressed to the Government Secretary, on the outside of which there shall be written the words:—

"Name of Tenderer enclosed"—

"Tender for supply of Imported Timber," and at the same time send the duplicate of his tender, containing the prices tendered, in a sealed envelope addressed to the Auditor General as Chairman of the Committee, and only marked on the outside "Tender for the Supply of Imported Timber."

6. Tenderers are advised to send these documents by Post registered.

7. Any Tender sent to the Chairman bearing on its duplicate or on the sealed envelope any name, note or mark by which the Tenderer can be identified will be rejected.

8. Every Tender must state distinctly the respective prices or rates of the supplies tendered for. No Tender dependent upon a sliding scale of prices or upon the "Market Rate" will be considered.

9. Tender may be made to supply the articles comprised in this class to all or to any one or more of the Institutions or Departments of the Service.

10. The Government does not bind itself to accept the lowest or any Tender, or the whole of any Tender, but may accept part only of any Tender and the acceptance of a Tender or any part thereof, will be conditional on security being given to the satisfaction of the Governor.

11. Any Department or branch thereof may be excluded, partially or wholly, from the operation of the Contract at the discretion of the Government, at any time during the continuance of the Contract.

12. The Government retains the right of rejecting any Tender without assigning any reason.

13. The names of the successful Tenderers will be published in the "Gazette."

14. The Contract must be duly executed

on or before the 31st January, 1911, at the Registrar's Office, at the expense of the Contractor, and no account will be paid under any Contract until its execution. The Contractor must also furnish a copy of the Contract to the Auditor General if required.

15. All articles are to be supplied on requisition from the Institution or Department requiring them. They are to be of the specified quality and subject to the approval of the Officer in charge or the Head of the Department concerned. Any Articles not in accordance with the Contract will be returned, and if not replaced within a reasonable time by the Contractor by an article in accordance with the Contract, the article may be obtained elsewhere and charged to the Contractor.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

All goods are to be delivered free to all the Colonial Buildings in New Amsterdam, the Hospital and Lunatic Asylum at Fort Canje, and Canje Bridge.

18. Detailed accounts are to be rendered monthly; and in duplicate or triplicate, as required by the Head of the Department supplied.

Before the close of such financial year notices will be published in the "Official Gazette" and local papers calling upon Contractors to render accounts and to collect the sums due to them, on or before a certain date to be fixed in such notice.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

19. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to remove goods so rejected after he shall have received notice of rejection.

20. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

21. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

22. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be measured, and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

23. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

24. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and any such purchases shall not annul or invalidate the Contract.

By Command,

Tenders must be sent to the Officials named hereinafter, not later than 12 o'clock, noon, on Thursday, the 29th September, 1910.

2. Printed Forms of Tender containing Schedule of Articles, with Terms and Conditions of Contract, may be obtained from the Treasury, Georgetown, and New Amsterdam, and from the Post Office, Suddie, on payment of 24 cents per set, of original and duplicate and paper of conditions, &c., and no Tender will be considered unless made on such Forms.

3. The Forms will be in duplicate, machine numbered. The original will bear the name of the Tenderer and the particulars of the prices tendered, the duplicate only the particulars of the prices tendered without any mark or sign except the machine number to identify the Tenderer.

4. The original of every Tender must be accompanied by the names of two responsible persons who are willing to become bound together with the Tenderer to execute the Contract, to be drawn up in the Registrar's Office, in the terms of this Advertisement, and in accordance with the conditions and specifications set out in or attached to the Tenders, for the due supply of the Articles named in the Tender. The address of every surety must be given. No Firm can be accepted as surety.

5. The Tenderer will enclose the original bearing his name and the names of his Sureties in the prescribed Form, in a sealed envelope addressed to the Government Secretary, on the outside of which there shall be written the words:—

"Name of Tenderer enclosed"—

"Tender for supply of Imported Timber,"

and at the same time send the duplicate of his tender, containing the prices tendered, in a sealed envelope addressed to the Auditor General as Chairman of the Committee, and only marked on the outside "Tender for the Supply of Imported Timber."

6. Tenderers are advised to send these documents by Post registered.

7. Any Tender sent to the Chairman bearing on its duplicate or on the sealed envelope any name, note or mark by which the Tenderer can be identified will be rejected.

8. Every Tender must state distinctly the respective prices or rates of the supplies tendered for. No Tender dependent upon a sliding scale of prices or upon the "Market Rate" will be considered.

9. Tender may be made to supply the articles comprised in this class to all or to any one or more of the Institutions or Departments of the Service.

10. The Government does not bind itself to accept the lowest or any Tender, or the whole of any Tender, but may accept part only of any Tender and the acceptance of a Tender or any part thereof, will be conditional on security being given to the satisfaction of the Governor.

11. Any Department or branch thereof may be excluded, partially or wholly, from the operation of the Contract at the discretion of the Government, at any time during the continuance of the Contract.

12. The Government retains the right of rejecting any Tender without assigning any reason.

13. The names of the successful Tenderers will be published in the "Gazette."

14. The Contract must be duly executed on or before the 31st January, 1911, at the Registrar's Office, at the expense of the Contractor, and no account will be paid under any Contract until its execution. The Contractor must also furnish a copy of the Contract to the Auditor General if required.

15. All articles are to be supplied on requisition from the Institution or Department requiring them. They are to be of the specified quality and subject to the approval of the Officer in charge or the Head of the Department concerned. Any Articles not in accordance with the Contract will be returned, and if not replaced within a reasonable time by the Contractor by an article in accordance with the Contract, the article may be obtained elsewhere and charged to the Contractor.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

All goods are to be delivered free to all the Colonial Buildings in New Amsterdam, the Hospital and Lunatic Asylum at Fort Canje, and Canje Bridge.

18. Detailed accounts are to be rendered monthly; and in duplicate or triplicate, as required by the Head of the Department supplied.

Before the close of such financial year notices will be published in the "Official Gazette" and local papers calling upon Contractors to render accounts and to collect the sums due to them, on or before a certain date to be fixed in such notice.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

19. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to remove goods so rejected after he shall have received notice of rejection.

20. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

21. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

22. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be measured, and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

23. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

24. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and any such purchases shall not annul or invalidate the Contract.

By Command,

Executive Council Notice.

GUIANA PUBLIC BUILDINGS,
Georgetown, Demerara,
23rd September, 1910.

THE following Regulations relating to Match Factories made by the Governor-in-Council on the 20th day of September, 1910, are hereby published for general information.

By Command,

JAMES DRYSDALE,
Acting Clerk of the Council.

REGULATIONS RELATING TO MATCH FACTORIES.

1. It shall not be lawful for any person to manufacture matches or cause the same to be manufactured within the colony until he has given notice thereof to the Receiver General.

2. Matches must be packed in cases containing ten gross of boxes of not more than one hundred matches in each box, and every manufacturer of matches shall keep a book in such form as may be approved by the Receiver General, in which shall be entered the number of such cases of matches put up and completed for delivery from the factory. There shall also be entered in such book the number of cases sent out or delivered from the factory. All cases of matches delivered from a factory are to be marked with a consecutive number to commence at "1" on the first day of each financial year, together with the name of the factory where manufactured. The manufacturer must also cause the word "Matches" to be placed outside of each case prior to delivery from the factory.

3. The Receiver General or the Commissary of the District or any Officer of the Treasury authorized by the Receiver General in writing, shall have access to the books of the factory, and may take extracts therefrom, and all duly authorised Officers of Excise while in the execution of their duty shall have access to all premises utilised for the manufacture of matches.

4. Every manufacturer of matches shall deposit with the Receiver General specimen copies of the labels which are to be used or intended to be used as labels for the boxes containing the manufactured matches, and no labels shall be so used copies of which have not been so deposited. Such labels must contain a statement or indication that the matches were made in British Guiana.

5. All matches manufactured within the colony must be put up in boxes, and all such boxes must be enclosed in excise wrappers of such stamp value as shall denote payment of the duty prescribed by the Tax Ordinance for the time being in force.

6. Such wrappers are to be obtained from the Receiver General, and they shall be in such form and with such device and with any words

and figures thereon as the Governor-in-Council may think proper : Provided that the Governor-in-Council may allow such device, words or figures to be combined with a description or advertisement of the matches, but in such case the manufacturer shall bear the whole cost of providing such labels.

7. As soon as the manufacture of the matches has been completed they must be packed as required by these regulations with all possible speed, and each box must have an excise wrapper affixed to it in such a way that the box cannot be opened without destroying the excise wrapper.

8. Cases of duty-paid matches packed and labelled in accordance with the provisions of these regulations may be removed direct from any match manufacturer's premises to be warehoused upon drawback in any warehouse duly approved of by the Governor-in-Council for the deposit of matches.

9. Any match manufacturer intending to warehouse matches upon drawback must first give notice of his intention to remove and warehouse such matches to the Commissary of Taxation within whose district the factory is situated.

10. Such notice must be furnished in duplicate in the Form "A" prescribed by the schedule to these regulations, and when duly signed by the Commissary of Taxation shall become the authority for the removal of the goods described in such form for the purpose of being warehoused upon drawback. A bond, with one or more sureties, to the extent of the amount of duty leviable on such matches must be given to the satisfaction of the Commissary, provided that a general bond may be entered into to cover any number of transactions. The forms of bonds shall be according to the Forms "B" and "C" prescribed by the schedule to these regulations.

11. The Commissary of Taxation when he has signed the notice and duplicate referred to in the preceding paragraph, will forward them by post to the principal officer in charge of the warehouse to which the goods are consigned. On due warehousing of the goods specified the fact is to be noted by the proper officer on the said notice and duplicate thereof, together with the number and date of issue of the drawback certificate. The original copy of the notice will be retained by the officer in charge of the warehouse accounts, and the duplicate copy when duly certified will be forwarded as a certificate of receipt to the manufacturer of the matches.

12. Drawback certificates are to be prepared in the Form "D" prescribed by the schedule to these regulations, and when duly certified by the proper officers are to be forwarded to the Receiver General for payment, but no drawback allowed by these regulations shall be paid after the expiration of one year from the date of the warehousing of the goods.

13. If, on examination by the proper officer, the goods are found to disagree with the particulars declared to on the entry to warehouse (Form "A" in schedule), or if the amount of the drawback claimed is in excess of the amount found to be due upon any matches warehoused on drawback, the manufacturer shall be liable to a penalty not exceeding one hundred dollars.

14. The person entitled to any drawback on any matches duly warehoused or his agent authorised by him for that purpose, shall make and subscribe a declaration upon the certificate (Form "D" in schedule) that the goods mentioned therein have been actually deposited in warehouse, and that such person at the time of entry and warehousing was and continued to be entitled to the drawback thereon, and the name of such person shall be stated in the certificate before payment is made to such person or his agent by the Receiver General, and payment made to such person or to any person to whom the same shall have been transferred by writing on such certificate, shall be a sufficient discharge for such drawback.

15. No matches manufactured within the colony are to be transferred, assigned, sold or kept for sale contrary to the provisions of these regulations, under a penalty not exceeding one hundred dollars.

16. If at the time of the coming into effect of these regulations any manufacturer or dealer in matches shall have in his possession any matches manufactured within the colony he may bring the same to any place approved by the Receiver General, and there he may wrap and label such matches, first rendering an account thereof, and showing to the satisfaction of the Receiver General that the excise duty thereon has been duly paid, and if any matches manufactured within the colony shall be found in the possession of any manufacturer or dealer in matches after the expiration of three months from the coming into effect of these regulations not being so wrapped and labelled as aforesaid such manufacturer or dealer in matches shall be liable to a penalty not exceeding one hundred dollars.

17. Every person who commits a breach of any of these regulations to which no penalty is specifically attached shall be liable to a penalty not exceeding one hundred dollars.

18. The Regulations relating to Match Factories, made by the Governor-in-Council on the fourth day of January, 1910, are hereby revoked.

19. These Regulations shall come into operation on the first day of April, 1911.

Made by the Governor-in-Council under the Excise Regulations Ordinance, 1905, on the twentieth day of September, 1910.

By Command,

JAMES DRYSDALE,
Acting Clerk of the Council.

FAWKES.

This is an appeal from the Stipendiary Magistrate of the South Essequibo Judicial District who dismissed a complaint brought by the appellant, a Sergeant of Police, against the respondent for unlawfully acting as an agent for the engagement of persons of the labouring class to proceed to another colony, to wit, Dutch Guiana, without being duly licensed by the Governor.

The reasons of appeal are that the respondent acted as an agent and engaged persons of the labouring class to proceed to Dutch Guiana.

The evidence of Gilkes is to the effect that he is a porter and fireman and that with 19 other men and the respondent he went to Nickerie having previously received six shillings in cash from the respondent with a free passage. Brotherson, who plants rice and is a carpenter, speaks of himself with Gilkes and about 17 others going to Nickerie.

It is submitted by counsel for the respondent that it was incumbent on the appellant to prove (1) that the respondent was not licensed; (2) that he had a principal and (3) that the persons engaged were of the labouring class.

With regard to 1 and 2, section 5 of the Ordinance (No. 1 of 1864) provides that in order to constitute an offence it shall be sufficient to prove (a) that the person charged offered to engage persons of the labouring class and (b) offered some inducement, e.g., a free passage or some other inducement as therein set out. It is contended with regard to (3) that Brotherson being a carpenter is not of the labouring class and that the use of the word "persons" renders it imperative to prove that more than one such person was engaged. In the absence of any interpretation clause it would seem that the words "labouring class" must be limited to the class who dig and do other work of that kind with their hands. "A carpenter . . . is not called a labourer" (per Brett M.R. in *Morgan v. London General Omnibus Company*, 53 L.T.Q.B., p. 352).

The evidence establishes that the offence was committed in respect of the labourer Gilkes. The only point that remains to be considered is the use of the word "persons." Ordinance No. 14 of 1891, section 2 (1) (b) provides that words in the plural shall include the singular unless the contrary intention appears. There is nothing to warrant such an intention under this Ordinance and in fact the Legislature must be regarded as equally solicitous for the welfare of one person of the labouring class as they would be for two or more of the same class.

The decision of the Magistrate must therefore be reversed with costs and the respondent convicted and ordered to pay the fixed penalty of ninety-six dollars and in default of payment to be imprisoned for two months with hard labour.

versus

LONDON, P. C.

This is an appeal from the Stipendiary Magistrate of the Georgetown Judicial District who convicted the appellants for that they did behave themselves disorderly at Parade Street, a public way.

The Magistrate finds that the bridge whereon the appellants committed the offence is private property and can be moved at the will of the owner but inasmuch as it is put within a public way any one on it must be in the public way.

The reason of appeal urged in behalf of the two appellants is that the bridge in question is not a public way within the Ordinance and with regard to the second appellant it is further argued that the decision is not founded on the evidence but on conclusions derived from a visit to the place in question or some other place. The Magistrate finds on the evidence that the bridge is between the yard and the road. There was evidence therefore independent of his personal observation on which he could find that the bridge was situated on the public road. With regard to the first reason for appeal the case relied on is *Curtis v. Embrey* (42 L.T. Mag. Cases, p. 39) in which it was held that a piece of ground, the property of a Railway Coy., used as an approach to their station

and not fenced off from the public highway was not a street within the meaning of section 3 of 10 and 11 Vict. Ch. 89. That case can have no bearing on the present one where a private bridge is placed on the highway as a means of obtaining ingress to and egress from certain premises.

The sole point is whether or not this private bridge comes within the definition of "public way" as defined by section 2 of Ordinance 17 of 1893, under which this complaint is brought. This section reads as follows:—"Public way" means any highway, market place, square, street, bridge, or other way which is lawfully used by the public. It is not nor could it be contended that the public lawfully use the bridge in question. This being so it can not be held to be a public way. It was open to the respondent to have charged the appellants under the same section (137) with disorderly behaviour within public hearing and to have obtained a conviction on the evidence adduced.

The appeal is allowed and the decision of the Magistrate reversed with costs.

In the matter of the petition of Georgiana M. Nathan and J. A. Scott, both of England, in their quality as the executors and trustees under the last will and testament of Alexander McDowell Nathan, deceased.

NOTICE is hereby given that the abovementioned petition dated the 11th day of August, 1910, has been presented to His Honour Maurice Julian Berkeley, acting Chief Justice of British Guiana, by the abovenamed Georgiana M. Nathan and J. A. Scott, praying that a new grosse should be given off of a certain Mortgage dated the 20th day of April, 1904 executed by Thomas Wardle, to and in favour of Alexander McDowell Nathan and vested with right of First Mortgage on the right of the said Thomas Wardle to occupy and otherwise enjoy and use Plantations Rising Sun, Washington, Hope and Golden Fleece, situate on the west coast of the county of Berbice, aforesaid, in terms of a certain agreement of lease made between James Jameson, as lessor, and the said Thomas Wardle, as lessee, dated 17th December, 1900, and deposited in the Registrar's Office of British Guiana on the 23rd day of February, 1904, on all the buildings, erections, machinery, cultivation and further appurtenances on and belonging to the said plantations and each of them; on all the live and dead stock now being on the said plantations and each of them and the progeny of the said live stock; on the rice and other products which may from time to time be reaped on the said plantations and each of them; on all the household and other furniture, ware and effects now in the principal dwelling house, all the property of the said Thomas Wardle; on all other buildings, erections, machinery, appurtenances, live and dead stock, furniture, ware and effects, which may hereafter be brought in or taken

on the said plantations or either of them either in addition to or in substitution for those at present existing and being on the said plantations and each of them and on all the rents due or to become due and the produce received or to be received by the said Thomas Wardle in respect of the sub-letting of portions of the said plantations and each of them by the said Thomas Wardle.

The grounds of the said application being that the said petitioners as the executors and trustees under the last will and testament of the said Alexander McDowell Nathan are the legal holders of the said Mortgage, that the Mortgage debt is still unpaid and that the grosse of the said Mortgage has been lost and is not now in the possession of the petitioners.

Any person who desires to oppose the granting of the said application is hereby required to file at this Office his reasons of opposition thereto on or before the 3rd day of December, 1910, after which date if no opposition shall have been entered application will be made for a final order on the said petition granting and allowing the prayer thereof.

Tenders must be sent to the Officials named hereinafter, not later than 12 o'clock, noon, on Thursday, the 29th September, 1910.

2. Printed Forms of Tender containing Schedule of Articles, with Terms and Conditions of Contract, may be obtained from the Treasury, Georgetown, and New Amsterdam, and from the Post Office, Suddie, on payment of 24 cents per set, of original and duplicate and paper of conditions, &c., and no Tender will be considered unless made on such Forms.

3. The Forms will be in duplicate, machine numbered. The original will bear the name of the Tenderer and the particulars of the prices tendered, the duplicate only the particulars of the prices tendered without any mark or sign except the machine number to identify the Tenderer.

4. The original of every Tender must be accompanied by the names of two responsible persons who are willing to become bound together with the Tenderer to execute the Contract, to be drawn up in the Registrar's Office, in the terms of this Advertisement, and in accordance with the conditions and specifications set out in or attached to the Tenders, for the due supply of the Articles named in the Tender. The address of every surety must be given. No Firm can be accepted as surety.

5. The Tenderer will enclose the original bearing his name and the names of his Sureties in the prescribed Form, in a sealed envelope addressed to the Government Secretary, on the outside of which there shall be written the words:—

8. Every Tender must state distinctly the respective prices or rates of the supplies tendered for. No Tender dependent upon a *sliding scale* of prices or upon the “*Market Rate*” will be considered.

9. Tender may be made to supply the articles comprised in this class to all or to any one or more of the Institutions or Departments of the Service.

10. The Government does not bind itself to accept the lowest or any Tender, or the whole of any Tender, but may accept part only of any Tender and the acceptance of a Tender or any part thereof, will be conditional on security being given to the satisfaction of the Governor.

11. Any Department or branch thereof may be excluded, partially or wholly, from the operation of the Contract at the discretion of the Government, at any time during the continuance of the Contract.

12. The Government retains the right of rejecting any Tender without assigning any reason.

13. The names of the successful Tenderers will be published in the “*Gazette*.”

14. The Contract must be duly executed on or before the 31st January, 1911, at the Registrar's Office, at the expense of the Contractor, and no account will be paid under any Contract until its execution. The Contractor must also furnish a copy of the Contract to the Auditor General if required.

15. All articles are to be supplied on re-

quisition from the Institution or Department requiring them. They are to be of the specified quality and subject to the approval of the Officer in charge or the Head of the Department concerned. Any Articles not in accordance with the Contract will be returned, and if not replaced within a reasonable time by the Contractor by an article in accordance with the Contract, the article may be obtained elsewhere and charged to the Contractor.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

All goods are to be delivered free to all the Colonial Buildings in New Amsterdam, the Hospital and Lunatic Asylum at Fort Canje, and Canje Bridge.

18. Detailed accounts are to be rendered monthly; and in duplicate or triplicate, as required by the Head of the Department supplied.

Before the close of such financial year notices will be published in the “*Official Gazette*” and local papers calling upon Contractors to render accounts and to collect the sums due to them, on or before a certain date to be fixed in such notice.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

19. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to remove goods so rejected after he shall have received notice of rejection.

20. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

21. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

22. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be measured, and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in-

quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

23. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

24. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and any such purchases shall not annul or invalidate the Contract.

TENDERS FOR THE SUPPLY OF IMPORTED TIMBER FOR THE PUBLIC SERVICE OF THE COLONY IN BERBICE.

WITH reference to "Official Gazette" Notice dated 3rd August, 1910, calling for Tenders for Supplies for the Public Service of the Colony for 1911, fresh Tenders are invited for the supply of IMPORTED TIMBER (CLASS I.)—White Pine Boards and Planks; Pitch Pine Boards and Planks; and Pitch Pine Scantlings, for the Public Service of the Colony for Berbice for the Calendar Year, 1st January to 31st December, 1911.

Tenders must be sent to the Officials named hereinafter, not later than 12 o'clock, noon, on Thursday, the 29th September, 1910.

2. Printed Forms of Tender containing Schedule of Articles, with Terms and Conditions of Contract, may be obtained from the Treasury, Georgetown, and New Amsterdam, and from the Post Office, Suddie, on payment of 24 cents per set, of original and duplicate and paper of conditions, &c., and no Tender will be considered unless made on such Forms.

3. The Forms will be in duplicate, machine numbered. The original will bear the name of the Tenderer and the particulars of the prices tendered, the duplicate only the particulars of the prices tendered without any mark or sign except the machine number to identify the Tenderer.

4. The original of every Tender must be accompanied by the names of two responsible persons who are willing to become bound together with the Tenderer to execute the Contract, to be drawn up in the Registrar's Office, in the terms of this Advertisement, and in accordance with the conditions and specifications set out in or attached to the Tenders, for the due supply of the Articles named in the Tender. The address of every surety must be given. No Firm can be accepted as surety.

5. The Tenderer will enclose the original bearing his name and the names of his Sureties in the prescribed Form, in a sealed envelope addressed to the Government Secretary, on the outside of which there shall be written the words:—

"Name of Tenderer enclosed"—

"Tender for supply of Imported Timber,"

and at the same time send the duplicate of his tender, containing the prices tendered, in a sealed envelope addressed to the Auditor General as Chairman of the Committee, and only marked on the outside "Tender for the Supply of Imported Timber."

6. Tenderers are advised to send these documents by Post registered.

7. Any Tender sent to the Chairman bearing on its duplicate or on the sealed envelope any name, note or mark by which the Tenderer can be identified will be rejected.

8. Every Tender must state distinctly the respective prices or rates of the supplies tendered for. No Tender dependent upon a sliding scale of prices or upon the "Market Rate" will be considered.

9. Tender may be made to supply the articles comprised in this class to all or to any one or more of the Institutions or Departments of the Service.

10. The Government does not bind itself to accept the lowest or any Tender, or the whole of any Tender, but may accept part only of any Tender and the acceptance of a Tender or any part thereof, will be conditional on security being given to the satisfaction of the Governor.

11. Any Department or branch thereof may be excluded, partially or wholly, from the operation of the Contract at the discretion of the Government, at any time during the continuance of the Contract.

12. The Government retains the right of rejecting any Tender without assigning any reason.

13. The names of the successful Tenderers will be published in the "Gazette."

14. The Contract must be duly executed on or before the 31st January, 1911, at the Registrar's Office, at the expense of the Contractor, and no account will be paid under any Contract until its execution. The Contractor must also furnish a copy of the Contract to the Auditor General if required.

15. All articles are to be supplied on requisition from the Institution or Department requiring them. They are to be of the specified quality and subject to the approval of the Officer in charge or the Head of the Department concerned. Any Articles not in accordance with the Contract will be returned, and if not replaced within a reasonable time by the Contractor by an article in accordance with the Contract, the article may be obtained elsewhere and charged to the Contractor.

16. The Contractor will also be liable, on the approval of the Governor, to a fine of five dollars for every day on which he neglects or delays to supply any such article.

17. Supplies are to be delivered in such quantities, at such places, and at such times, as may be required.

All goods are to be delivered free to all the Colonial Buildings in New Amsterdam, the Hospital and Lunatic Asylum at Fort Canje, and Canje Bridge.

18. Detailed accounts are to be rendered monthly; and in duplicate or triplicate, as required by the Head of the Department supplied.

Before the close of such financial year notices will be published in the "Official Gazette" and local papers calling upon Contractors to render accounts and to collect the sums due to them, on or before a certain date to be fixed in such notice.

Sums not collected before the date fixed shall be liable to postponement of payment for six calendar months from that date.

19. In case of a dispute arising as to the quality or otherwise of an article delivered under this contract, the decision of the Head of Department is to be final, and binding on the Contractor, who shall be bound to re-

move goods so rejected after he shall have received notice of rejection.

20. In the event of a Contractor failing to remove rejected articles and to replace them with others of approved quality they may be returned to the parties and others purchased elsewhere, deducting cost thereof over and above the contract price if any, and all expenses incurred, from any money that may be due or may become due to such Contractor.

21. Should the Contractor fail to execute any order for any of the articles contracted for by him, within such time as may be fixed by the Head of the Department, whether such order be sent by the Head of Department or by any person duly authorised, he will not only be liable to the penalties incurred by breach of Contract, but the Head of Department or his Deputy shall be at liberty to procure such materials elsewhere, and any excess in cost over the contract price, may be deducted from any money or moneys due, or that may become due, by the Colonial Government to the Contractor.

22. All articles supplied at or on account of any Department, Institution, Prison or Police Station, will on their delivery be measured, and duly noted and accounted for, and any article delivered by the Contractor which on examination after delivery, may be found to be inferior in quality will be returned at the expense of the Contractor, and he shall immediately replace it by a similar article of approved quality, and should he fail so to do, the article will be at once procured at his cost: Further, should any article in exchange for that required to be replaced as above stated, be not delivered before indispensable need for its use arise, or should the Contractor after having received an order to deliver any article within his contract fail to deliver the same, the said article shall be at once procured at his cost.

23. A priced invoice, setting out in detail the quantities, rates, and prices of all articles supplied, shall be delivered to the officer in charge of the Department, or Institution, with each delivery of goods; and in case of the non-fulfilment of this requirement, the quantities ascertained on their reception by that officer shall be held to be final.

24. At the same time the Colonial Government reserve to themselves the right to purchase in any market, at their discretion, any article that is not mentioned in the contract, or the supply of which may not have been tendered for, or the tender not accepted, or any article mentioned in the tender but against which no price has been placed by the Contractor; and any such purchases shall not annul or invalidate the Contract.

HIS Excellency the Governor directs the publication, for general information, of the following letter received from the Colonial Secretary of Barbados relative to the requirements of the Barbados General Board of Health in connection with the landing in that Island of animals imported from this Colony:—

Colonial Secretary's Office,
Barbados,
29th August, 1910.

Sir,—I am directed by the acting Governor to transmit to you the enclosed copy of a minute from the Clerk of the General Board of Health, and to invite the attention of your Government to the requirements of the Barbados Regulations, as set forth in the Proclamation, a copy of which is enclosed, and to take such steps as might be deemed necessary for making the Regulations known to the Public in Demerara.

I have, &c.,

EDWARD T. GRANNUM,
acting Colonial Secretary.

The Honourable,
The Government Secretary,
British Guiana.

Minute by the Clerk, General Board of Health.

Hon. Colonial Secretary.

On the 26th February, 1906, the General Board of Health made a Regulation, which is published in the "Official Gazette" of the 12th March, 1906, requiring that no animal arriving here from British Guiana shall be allowed to be landed except it is accompanied by a certificate signed by the Government

Veterinary Surgeon that such animal, with the fodder put on board therewith, had not for 14 days prior to embarkation been within an area infected with anthrax.

Within the last few weeks several lots of cattle have arrived from Demerara, some with only a certificate from a Private Veterinary Surgeon and others (two yesterday and the day before) with a certificate from the Government Veterinary Surgeon simply stating that the animals were healthy. All these animals were quarantined for 14 days.

As these irregularities have put the shippers of the cattle to a great deal of unnecessary expense, I have been directed to ask that His Excellency the Governor will call the attention of the British Guiana authorities to them and to the requirements of the Regulation, and ask that those requirements should be brought to the notice of the Demerara Public by publication in the local papers.

(Sgd.) JAS. SANDERSON,
Clerk, General Board of Health,
25th August, 1910.

BARBADOS.

G. T. CARTER,
Governor.

By His Excellency SIR GILBERT
THOMAS CARTER, Knight Com-
mander of the Most Distinguish-
ed Order of St. Michael and St.
George, Governor and Com-
mander-in-Chief of the Island
of Barbados, &c. &c. &c.

A PROCLAMATION.

WHEREAS by section 40, sub-section 1 (a) of the "Public Health Act, 1898" the General Board of Health is empowered from time to time to make and submit to the Governor-in-Executive Committee for approval such general or special orders and rules as they may think fit for prohibiting the landing of animals, &c., &c.

And whereas the General Board of Health on the 26th day of February, 1906, made the following Rules, namely:—

1. No animal arriving here from British Guiana shall be allowed to be landed unless it is accompanied by a certificate signed by the Government Veterinary Surgeon of that Colony that such animal with the fodder put on board therewith had not for 14 days prior to embarkation been within an area infected with anthrax.

2. No animal arriving here from Grenada or St. Vincent shall be allowed to be landed unless it is accompanied by a Certificate signed by the Government Veterinary Surgeon of the Colony from which the animal comes or should there be no such officer in such Colony then by the Chief of Police and Port Officer of that Colony that such animal with the fodder put on board therewith had not for 14 days prior to embarkation been within an area infected with anthrax.

3. No animal arriving here from any of the Islands known as the St. Vincent Grenadines shall be allowed to be landed unless it is accompanied by a Certificate signed by the person in charge of the Island from which the animal is shipped (whose name and position shall be notified to the Governor of this Island by the Officer Administering the Government of St. Vincent) that (a) there had not been any case of anthrax in such Island within the preceding three months; and (b) that no horse, mule, ass, sheep, goat or cattle had been landed in that Island from St. Vincent, Grenada and its dependencies, British Guiana, or Venezuela, within the preceding 14 days; and should the vessel conveying such animal to this Island touch at any other place on its way here the Captain thereof shall produce to the Inspector of Imported animals here a Certificate from the Custom Authorities of such place that such animal had not been landed there, and that any fodder put on board had not come from an area infected with anthrax.

The following Regulations are hereby repealed, namely:—(1) the Regulation of the 12th of July, 1904, so far as it relates to the landing of cattle from Trinidad and Tobago; (2) No. 3 of the Regulations of the 1st of March, 1905, relating to the landing of cattle from British Guiana; (3) the Regulations of the 26th of June, 1905, relating to the landing of animals from Grenada and the Grenadines; and (4) the Regulations of the 18th of August, 1905, relating to the landing of animals from St. Vincent and the St. Vincent Grenadines.

Now therefore in accordance with the said Act and by virtue of the power and authority vested in me I do hereby and with the advice of the Executive Committee confirm the said Rules and every matter

and thing herein contained and publish the same for the information of all persons, who are hereby required to take due notice thereof and govern themselves accordingly.

SUPREME COURT OF BRITISH GUIANA.

APPELLATE JURISDICTION.

THIS 23RD DAY OF SEPTEMBER, 1910.

LECA
versus
REID.

This is an appeal from the Stipendiary Magistrate of the Georgetown Judicial District who convicted the appellant for that he did unlawfully and knowingly keep in his shop certain goods, to wit, 6½ ozs. of tobacco, the duties of customs in respect of such goods not having been paid. (Section 164 (6) of Ordinance 7 of 1884.)

The reasons of appeal are :—

(1.) That the decision is erroneous in point of law, (a) because there was no evidence given by the prosecution to prove that the appellant had knowledge that the said tobacco was uncustomed and (b) there was no evidence to prove that the appellant had knowledge of the existence of the said tobacco in his shop.

(2.) That the decision is unwarranted by the evidence on the ground stated in reason 1 (a) and (b).

The evidence establishes that the tobacco in question was found in a glass case in a shop belonging to the appellant, the profits of which are divided between himself and Nobrega who had charge of the shop. It is submitted that on the evidence for the respondent it is shown that both sailors and passengers are permitted to bring small quantities of tobacco ashore free of duty and that with regard to passengers it is provided in the schedule to the Ordinance that they may so bring ashore one pound in weight for their personal use, and that under these circumstances—the quantity found in the present case being within such limit—section 156 does not apply, and the onus of proving that [this] tobacco is uncustomed lies on the respondent and has not been discharged. Admitting for the sake of argument that the tobacco was obtained either from a passenger or sailor and that, therefore, it was not liable to and was not unshipped without payment of duty within the meaning of section 156, this Court is of opinion that the words "unless the contrary is proved" at the end of the section cast upon a defendant regardless of the quantity found the onus of proving it was so obtained. Tobacco is a good the importation of which is restricted and is of a description admissible to duty and the section provides that *all* such goods with no limitation as to quantity shall be so deemed and taken unless the contrary be proved.

By reference, however, to the schedule it is seen that such permission to a passenger does not extend to tobacco but is limited to "cigars, cigarillos or cigar-ettes" which the Officer of the Customs has to be satisfied are "for such passengers *exclusive* personal use." That the word "tobacco" in the Ordinance is not meant ordinarily to include these goods is shown by section 194 (4). The custom, therefore, extended to passengers as to tobacco has not the authority of law and could not be recognised in any case as rendering nugatory the clear provisions of the statute. It is not suggested that the custom extended to sailors is anything more than an indulgence and without legal authority. It stands, therefore, on no better footing than that extended to passengers.

With regard to reason (b), the knowledge need not be that of the appellant himself but it may be that of some one he has put in his place to act for him. (Wright J. in *Sherras v. De Rutzen*, 1895, 1 Q.B., p. 918). It, however, it were otherwise the Magistrate finds that the appellant received half of the profits of the shop. In *Regina v. Dean* (12 Meeson and Welsby p. 43), it was held that the mere fact that a defendant derived benefit by the fraud of his clerk was *prima facie* evidence of his knowledge of the fraud. The Magistrate's finding shows, therefore, that there was *prima facie* evidence against the appellant.

The above findings dispose of reason 2 of the appeal. Appeal dismissed with costs.
